Garbage Billing Change

In order to prevent any confusion in the future, the billing for the garbage is being adjusted to match the billing for water usage. This change will result in both water and garbage being billed after the service is used instead of water billed after and garbage billed before. This correction is resulting in NO charge billed in April as the March bill had the garbage service for mid-March to mid-April. The May bill will be for service from mid-April to mid-May.

The City will be providing a location to drop off items for spring clean up. This will be held on May 18, 2019. See additional insert for more information. This insert also provides you with a ticket to use the day of the cleanup. This is for city residents only, you must have a ticket to come.
